

Date of Report: 2 - 6 - 97BURNED-AREA REPORT
(Reference FSH 2509.13)PART I - TYPE OF REQUEST

A. Type of Report

- ☐ 1. Funding request for estimated EFFS-FW22 funds
☒ 2. Accomplishment Report
☐ 3. No Treatment Recommendation

B. Type of Action

- ☐ 1. Initial Request (Best estimate of funds needed to complete eligible rehabilitation measures)
☐ 2. Interim Report
 ☐ Updating the initial funding request based on more accurate site data and design analysis
 ☐ Status of accomplishments to date
☒ 3. Final report - following completion of work

PART II - BURNED-AREA DESCRIPTION

- A. Fire Name: Vivian Park B. Fire Number: UT-UIF-P48245
C. State: Utah D. County: Utah
E. Region: Intermountain F. Forest: Uinta
G. District: Pleasant Grove
H. Date Fire Started: 8/11/96 I. Date Fire Controlled: 8/14/96
J. Suppression Cost: \$ not available
K. Fire Suppression Damages Repaired with EFFS-PF12 Funds:
 1. Fireline waterbarred (miles) 2 miles
 2. Fireline seeded (miles) 0
 3. Other (identify) _____
L. Watershed Number: Provo River HUC #16020203
M. NFS Acres Burned: 485 Total Acres Burned: 485
 Ownership type:
 () State () BLM () PVT () _____
N. Vegetation Types: Oak - Maple, Sagebrush - Grass
O. Dominant Soils: Landtypes TM3 (40%), SC16 (40%), SC4 (20%)
 Source: 1981 Pleasant Grove Soil Survey
P. Geologic Types: Sandstone & Limestone - Oquirrh Formation (100%)
Q. Miles of Stream Channels by Order or Class:
 1 mile (int) 1 mile (eph)
R. Transportation System:
 Trails: 0 miles Roads: 0 miles

Accomplishments

Authorization to spend \$6,700 of Emergency Burn Rehabilitation funds for treatment of the Vivian Fire was received in late August. Seed was ordered immediately. Mapleleaf Seed of Ephraim, Utah, was able to provide the species needed at the lowest price. Seed was purchased for just under \$3.50 per pound PLS, or \$44 per acre.

Work was accomplished as outlined in the BAER proposal. Approx. 40 acres were broadcast using a helicopter on October 18, 1996. Seeding was accomplished in several hours. Total cost for the helicopter, crew and nurse truck was \$1,653.90. The area received precipitation the next day and throughout the next week. Good response for the seeding effort is anticipated.

PART VI - EMERGENCY REHABILITATION TREATMENTS AND SOURCE OF FUNDS BY LAND OWNERSHIP
